

## Important Notice

The Asphalt Institute is committed to your satisfaction and we offer the following important notice to prospective buyers.

The Asphalt Institute encourages all prospective buyers of the SW-1 software to thoroughly review the trial version of the program and the available documentation prior to making your decision to purchase SW-1. At a minimum, we recommend that anyone considering purchasing SW-1 do the following prior to buying the software:

- Install the trial version of SW-1 and test it out thoroughly for up to 30 days.
- Read the SW-1 User's Guide completely. Make sure that the capabilities of SW-1 meet your needs.
- Read the SW-1 FAQ to see common questions about SW-1 and our responses.

Once you are satisfied that SW-1 will meet your needs, you must purchase an activation key to convert your trial version of SW-1 into the full version of the software. In selling the SW-1 activation key, the Asphalt Institute will assume that the buyer has carefully evaluated our product. All sales of SW-1 activation keys are final.

The Asphalt Institute believes that the more you become informed about SW-1, the more you will appreciate its flexibility, power, and ease-of-use. We thank you for your interest and hope you like our software.
