

The Asphalt Institute

Basic Roofing Technician Training

\$1,195 (17.5 PDHs)

Course Description

This course is a hands-on training program intended to introduce the student to the testing of roofing asphalt binders. Learn the test procedures, calculations and criteria involved with grading roofing asphalt binders. Develop and hone your skills during intensive hands-on labs including sample preparation and testing including softening point (Ring & Ball, Mettler Cup and Ball), penetration, flash point (Cleveland Open Cup), ductility, and rotational viscosity. Observe demonstrations of the solubility and stain index tests. Review rheological testing procedures using the dynamic shear rheometer (DSR). Learn about aging, testing variability, and modification of roofing asphalt binders.

Who Should Attend

Although the course is aimed specifically at technicians who will be testing roofing asphalt binders, other technologists, engineers, consultants, and scientists involved in the asphalt roofing industry should also benefit from the course.

Jan 27-29, 2020
Nov 30-Dec 2, 2020
